ISO 9001:2015

Version 0.7 — English

Quality Manual - Chapter 1: Introduction

Document	MQ_01_Introduction
Version	v0.7
Date	2026-03-04
Classification	Internal
Process	All processes
Drafted by	Quality Role
Approved by	Management

1.1 Purpose of the Quality Manual

This Quality Manual describes the Quality Management System (QMS) of **Plus Sarl**, in accordance with the requirements of the **ISO 9001:2015** standard.

It constitutes the reference document of the QMS and its objectives are to:

- Define the scope and field of application of the QMS
- Present the organization, processes and their interactions
- Describe the provisions taken to satisfy the requirements of the ISO 9001:2015 standard
- Serve as a reference for internal and external audits
- Communicate Management's commitments regarding quality

1.2 Scope

The QMS of Plus Sarl covers all activities related to **industrial monitoring and worldwide sourcing**, including:

- Sales management and customer relations
- Selection, qualification and evaluation of international suppliers
- Monitoring and quality control of outsourced production
- Logistics coordination and international shipping
- Document management and support processes

Exclusions

In accordance with clause 4.3 of ISO 9001:2015, clause **8.3 (Design and development)** is excluded from the scope. Plus Sarl does not perform product design; the company provides sourcing and quality control of products designed by its customers or suppliers.

1.3 Normative References

Standard / Document	Description
ISO 9001:2015	Quality management systems -- Requirements

Standard / Document	Description
ISO 9000:2015	Quality management systems -- Fundamentals and vocabulary
ISO 19011:2018	Guidelines for auditing management systems
ISO 2859-1 (AQL)	Sampling procedures for inspection by attributes

1.4 Structure of the Quality Manual

The Quality Manual is structured according to the chapters of the ISO 9001:2015 standard:

Chapter	Title	ISO 9001 Clause
1	Introduction	1, 2, 3
2	Activities, Organization and Customer Relations	4.3, 4.4, 8.2
3	Quality Management System Support	4.4
4	Context of the Organization	4.1, 4.2
5	Leadership	5.1, 5.2, 5.3
6	Planning	6.1, 6.2, 6.3
7	Support	7.1 to 7.5
8	Operational Activities	8.1 to 8.7
9	Performance Evaluation	9.1, 9.2, 9.3
10	Improvement	10.1, 10.2, 10.3

1.5 Quality Manual Management

Responsibilities

Action	Responsible
Drafting and updating	Quality Role
Verification	Quality Role
Approval	Management
Distribution	Document Management Role

Management Rules

- The Quality Manual is a **controlled document** subject to document management rules (PS01)
- Any modification is subject to a change request (FM-PS01-DEM)
- The current version is available on the document server
- Any printed copy is considered uncontrolled

- The revision history is tracked in each chapter

1.6 Terms and Definitions

The terms used in this Quality Manual comply with the definitions of ISO 9000:2015. Terms specific to Plus Sarl are defined below:

Term	Definition
QMS	Quality Management System
Monitoring	Tracking and control of production activities at supplier facilities
Sourcing	Identification and selection of international industrial suppliers
AQL	Acceptable Quality Level -- acceptable quality level for sampling
IPC	Initial Production Check -- inspection at the start of production
DUPRO	During Production -- in-process production inspection
PSI	Pre-Shipment Inspection -- inspection before shipment
Loading Check	Container loading inspection
NC	Nonconformity
CA	Corrective Action
PDCA	Plan-Do-Check-Act -- continual improvement cycle
REX	Lessons Learned (Retour d'Experience)
POD	Proof of Delivery

2.1 Presentation of Plus Sarl

Plus Sarl is a company specializing in **industrial monitoring and worldwide sourcing**. The company acts as a qualified intermediary between its customers and an international network of industrial suppliers, ensuring the conformity, quality and traceability of sourced products.

Areas of Activity

Area	Description
Worldwide industrial sourcing	Identification and qualification of international suppliers
Production monitoring	Tracking and quality control of outsourced production
Inspection and quality control	Performing inspections at various stages of production
Consulting and support	Technical and logistical assistance for procurement operations

2.2 Outsourced Production Model

Plus Sarl operates according to a **fully outsourced production model**. The company does not own its own manufacturing facilities. Its role consists of:

1. **Selecting** the most suitable suppliers for customer requirements
2. **Qualifying** the production capabilities of industrial partners
3. **Supervising** critical manufacturing stages
4. **Controlling** product quality before shipment
5. **Coordinating** international logistics

This model requires rigorous control of outsourced processes in accordance with the requirements of the ISO 9001:2015 standard, clause 8.4.

2.3 Main Process Map

Management Processes

Code	Process	Owner	Main Objective
PM01	Strategic management	Management	Define strategic directions and ensure oversight

Realization Processes

Code	Process	Owner	Main Objective
P01	Sales management	Commercial Role	Manage customer relations and analyze requests
P02	Purchasing and sourcing	Purchasing Role	Select and qualify international suppliers
P03	Monitoring and quality control	Quality Role	Ensure product conformity through inspections
P04	Logistics and shipping	Logistics Role	Coordinate international transport and delivery

Support Processes

Code	Process	Owner	Main Objective
PS01	Document management	Document Management Role	Control QMS documentation
PS02	Competence management	Management	Ensure adequacy of competencies
PS03	Continual improvement	Quality Role	Drive continual improvement of the QMS

2.4 Process Interactions

2.5 International Customer Relations

Customer Typology

Category	Description
Manufacturers	Manufacturing companies requiring component sourcing
Distributors	Distribution companies seeking finished products
Principal contractors	Companies outsourcing all or part of their production
Design offices	Organizations requiring technical sourcing support

Geographic Coverage

Plus Sarl operates on a worldwide scale, with customers and suppliers across all continents. The company provides its services regardless of the geographic location of the stakeholders.

Customer Communication Channels

Channel	Use	Frequency
Professional email	Routine communication, report delivery	Daily
Video conferencing	Project meetings, quality reviews	Weekly
Online platform	Order tracking, document sharing	Continuous
On-site visits	Audits, inspections, strategic meetings	As needed

2.6 Request Analysis Workflow

The customer request analysis process follows these steps:

Step 1: Request Reception

- The **Commercial Role** receives the customer request
- Registration in the management system
- Assignment of a unique reference number

Step 2: Feasibility Analysis

- Evaluation of technical specifications
- Verification of qualified supplier availability

- Analysis of logistics and lead time constraints
- Consultation with the **Purchasing Role** and **Quality Role** as needed

Step 3: Requirements Review

Review Element	Responsible	Validation Criterion
Technical specifications	Quality Role	Compliance with applicable standards
Supplier capability	Purchasing Role	Qualified supplier available
Lead times	Logistics Role	Consistency with customer expectations
Commercial conditions	Commercial Role	Profitability and acceptable conditions
Regulatory requirements	Quality Role	Compliance with applicable regulations

Step 4: Quotation and Validation

- Issuance of the commercial offer by the **Commercial Role**
- Possible negotiation with the customer
- Final validation and order acceptance

Step 5: Operational Launch

- Transfer of the file to the **Purchasing Role** for supplier order placement
- Inspection planning by the **Quality Role**
- Logistics organization by the **Logistics Role**

2.7 Commitments to Customers

Plus Sarl commits to its customers on the following points:

1. **Transparency:** clear and regular communication on order progress
2. **Quality:** rigorous control of product conformity to specifications
3. **Responsiveness:** prompt handling of requests and complaints
4. **Traceability:** complete documentation of each process step
5. **Continual improvement:** systematic consideration of customer feedback

Quality Manual - Chapter 3: Quality Management System Support

Document	MQ_03_Support_SMQ
Version	v0.7
Date	2026-03-04
Classification	Internal
Process	All processes
Drafted by	Quality Role
Approved by	Management

3.1 QMS Organizational Structure

The Quality Management System of Plus Sarl is based on a functional role-based organization. Each role is defined by its responsibilities, authorities and interactions with other roles. The detailed competency matrix is managed in process PS02 - Competence Management (FM-PS02-MCO).

3.2 Role Map

3.2.1 Management

Attribute	Description
Mission	Drive the company strategy and ensure the effectiveness of the QMS
Responsibilities	Definition of the quality policy, resource allocation, management review, commitment to customer satisfaction
Authority	Strategic decisions, approval of QMS documents, validation of quality objectives
Processes managed	PM01 - Strategic management, PS02 - Competence management

3.2.2 Commercial Role

Attribute	Description
Mission	Manage customer relations and ensure business development
Responsibilities	Analysis of customer requests, issuance of quotations, order tracking, customer complaint management

Attribute	Description
Authority	Validation of commercial offers, acceptance of orders within the defined framework
Processes managed	P01 - Sales management

3.2.3 Purchasing Role

Attribute	Description
Mission	Select, qualify and manage international suppliers
Responsibilities	Supplier prospecting, initial qualification, negotiation, order placement, periodic supplier evaluation
Authority	Supplier selection, suspension of a nonconforming supplier
Processes managed	P02 - Purchasing and sourcing

3.2.4 Logistics Role

Attribute	Description
Mission	Coordinate logistics operations and international shipments
Responsibilities	Transport planning, shipment tracking, customs documentation management, coordination with freight forwarders
Authority	Choice of transport modes, validation of shipping documents
Processes managed	P04 - Logistics and shipping

3.2.5 Quality Role

Attribute	Description
Mission	Ensure product conformity and QMS effectiveness
Responsibilities	Inspection planning and execution, nonconformity management, internal audits, quality indicator monitoring, continual improvement
Authority	Blocking of nonconforming products, initiation of corrective actions, product release decisions
Processes managed	P03 - Monitoring and quality control

3.2.6 Document Management Role

Attribute	Description
Mission	Ensure QMS document control
Responsibilities	Creation, revision and distribution of documents, records management, archiving, version control
Authority	Validation of document compliance, withdrawal of obsolete documents
Processes managed	PS01 - Document management

3.3 Role Interaction Matrix

Sender Role / Receiver Role	Management	Commercial Role	Purchasing Role	Logistics Role	Quality Role	Document Mgmt Role
Management	-	Strategic directions	Purchasing budgets	Logistics objectives	Quality policy	Document requirements
Commercial Role	Sales reports	-	Customer specifications	Shipping needs	Customer quality requirements	Document requests
Purchasing Role	Purchasing reporting	Supplier confirmations	-	Supplier information	Qualification files	Supplier records
Logistics Role	Logistics reporting	Shipping confirmations	Transport coordination	-	Transport documents	Customs documents
Quality Role	Quality indicators	Inspection reports	Supplier evaluations	Shipment authorization	-	Reports and records
Document Mgmt Role	Document dashboard	Applicable documents	Applicable documents	Applicable documents	Applicable documents	-

3.4 Information and Decision Flow

3.4.1 Upward Flow (to Management)

Source	Type of Information	Frequency
Commercial Role	Revenue, customer satisfaction	Monthly
Purchasing Role	Supplier performance, purchasing costs	Monthly
Logistics Role	On-time delivery rate, incidents	Monthly
Quality Role	NC rate, inspection results, KPIs	Monthly
Document Mgmt Role	Documentation status, document audits	Quarterly

3.4.2 Downward Flow (from Management)

Recipient	Type of Information	Frequency
All roles	Quality policy, strategic objectives	Annual
All roles	Management review results	Semi-annual
Relevant role	Resource allocation decisions	As needed
Relevant role	Strategic corrective actions	As needed

3.4.3 Cross-functional Flow (between operational roles)

Sender	Receiver	Information	Trigger
Commercial Role	Purchasing Role	Validated new order	Order acceptance
Purchasing Role	Quality Role	Supplier order placed	Order confirmation
Quality Role	Logistics Role	Product release authorization	Successful inspection
Quality Role	Purchasing Role	Supplier nonconformity	NC detection
Logistics Role	Commercial Role	Shipping confirmation	Goods departure

3.5 Authority Matrix

Decision	Management	Commercial Role	Purchasing Role	Quality Role	Logistics Role	Document Mgmt Role
Quality policy approval	A	I	I	C	I	I
Customer order acceptance	I	A	C	C	C	-
New supplier selection	I	I	A	C	-	-
Supplier suspension	C	I	A	R	-	-
Product lot release	-	I	I	A	I	-
Nonconformity hold	I	I	I	A	I	-
QMS document validation	A	-	-	C	-	R

Decision	Management	Commercial Role	Purchasing Role	Quality Role	Logistics Role	Document Mgmt Role
Corrective action initiation	I	-	-	A	-	I
Resource allocation	A	-	-	C	-	-

Legend: A = Approves / R = Responsible / C = Consulted / I = Informed

3.6 Competencies by Role

The detailed competency matrix is documented in process PS02 - Competence Management (FM-PS02-MCO). The table below presents the key competency areas required by role.

Role	Key Competency Areas
Management	Strategic management, financial management, leadership, ISO standards
Commercial Role	Commercial negotiation, customer relations, foreign languages, international trade
Purchasing Role	International sourcing, supplier negotiation, product knowledge, supplier evaluation
Logistics Role	International logistics, customs regulations, Incoterms, transport management
Quality Role	ISO 9001 quality standards, inspection techniques, metrology, audit, NC management
Document Management Role	Document management, digital tools, archiving, records control

Normative References

Quality Manual - Chapter 4: Context of the Organization

Document	MQ_04_Contexte
Version	v0.7
Date	2026-03-04
Classification	Internal
Process	PM01 - Strategic management
Drafted by	Quality Role
Approved by	Management

4.1 Understanding the Organization and Its Context

Plus Sarl operates in the industrial monitoring and worldwide sourcing sector. Understanding the internal and external context is essential to guide the Quality Management System.

4.1.1 External Issues

Category	Identified Issues
Economic	Exchange rate fluctuations, international transport cost changes
Regulatory	Compliance with international standards, multiple customs regulations
Technological	Digitalization of trade, remote monitoring tools, online platforms
Competitive	Presence of international competitors, price pressure
Geopolitical	Instability in certain regions, international trade barriers
Environmental	Growing requirements for sustainability and social responsibility

4.1.2 Internal Issues

Category	Identified Issues
Organizational	Agile human-scale structure, need for role versatility
Competencies	Technical expertise in sourcing and quality, foreign language proficiency
Processes	QMS maturity, standardization of working methods
Infrastructure	IT tools, communication resources, document management system

Category	Identified Issues
Culture	Customer orientation, quality commitment, continual improvement

4.2 SWOT Analysis

Dimension	Elements
Strengths (S)	- Recognized expertise in international industrial monitoring
	- Network of qualified suppliers worldwide
	- Agile structure enabling high responsiveness
	- In-depth knowledge of international quality standards
	- Ability to operate on all continents
Weaknesses (W)	- Dependency on external service providers for inspections
	- Small size limiting simultaneous processing capacity
	- Need to strengthen process documentation
	- Information system to be consolidated
Opportunities (O)	- Growing demand for qualified international sourcing services
	- Development of new geographic markets
	- Digitalization of inspection and monitoring services
	- Strategic partnerships with local inspection bodies
	- ISO 9001 certification as a competitive advantage
Threats (T)	- Increased competition in the international sourcing market
	- Logistics risks related to international transport
	- Rapid evolution of regulatory requirements in different countries
	- Currency risks and regional economic instability

4.3 Relevant Interested Parties

4.3.1 Identification of Interested Parties

Interested Party	Needs and Expectations	Level of Influence
Customers	Product quality, on-time delivery, transparency, traceability	High
International suppliers	Fair relationships, clear specifications, order continuity	High
Employees (all roles)	Working conditions, training, recognition, stability	High
Inspection bodies	Precise specifications, adequate planning	Medium
Regulatory authorities	Legal compliance, compliant declarations	Medium
Freight forwarders / logistics providers	Clear instructions, complete documentation	Medium
Financial partners	Business sustainability, solvency	Medium
Competitors	Fair market practices	Low

4.3.2 Monitoring of Interested Parties

Interested Party	Monitoring Method	Frequency	Responsible
Customers	Satisfaction surveys, complaints	Continuous	Commercial Role
Suppliers	Periodic evaluations, audits	Semi-annual	Purchasing Role
Employees	Individual interviews, reviews	Annual	Management
Regulatory authorities	Regulatory watch	Continuous	Quality Role

4.4 Scope of the QMS

4.4.1 Perimeter

The Quality Management System of Plus Sarl applies to all activities related to **industrial monitoring and worldwide sourcing**, including:

- Sales management and customer relations
- Selection and qualification of international suppliers
- Production monitoring and quality inspections
- International logistics coordination
- QMS document management

4.4.2 Exclusions

ISO 9001:2015 Clause	Excluded Requirement	Justification
8.3	Design and development	Plus Sarl does not design products; design is performed by customers or suppliers

4.4.3 Sites Covered

The QMS covers all operations of Plus Sarl, regardless of the geographic location of interventions. Inspections and audits are performed at supplier sites worldwide.

4.5 Quality Management System and Its Processes

4.5.1 Process Approach

Plus Sarl applies a process approach in accordance with the requirements of the ISO 9001:2015 standard. Processes are defined, documented and monitored using performance indicators.

4.5.2 Identified Processes

Type	Code	Process	Main Inputs	Main Outputs
Management	PM01	Strategic management	Context, interested party requirements	Policy, objectives, resources
Realization	P01	Sales management	Customer request	Validated order
Realization	P02	Purchasing and sourcing	Specifications	Selected supplier, order
Realization	P03	Monitoring and quality control	Supplier order	Inspection report, decision
Realization	P04	Logistics and shipping	Released product	Customer delivery
Support	PS01	Document management	Documentation needs	Controlled documents
Support	PS02	Competence management	Competency needs	Competent personnel
Support	PS03	Continual improvement	NCs, audits, customer feedback	Corrective actions, improvement plans

4.5.3 Risks and Opportunities by Process

The risks and opportunities associated with each process are identified and addressed in Chapter 6 of this Quality Manual (MQ_06_Planification).

Normative References

Document	MQ_05_Leadership
Version	v0.7
Date	2026-03-04
Classification	Internal
Process	PM01 - Strategic management
Drafted by	Quality Role
Approved by	Management

5.1 Leadership and Commitment

5.1.1 Management Commitment

The Management of Plus Sarl demonstrates its leadership and commitment to the Quality Management System by:

1. **Assuming responsibility** for the effectiveness of the QMS
2. **Establishing** the quality policy and quality objectives compatible with the context and strategic direction of the organization
3. **Ensuring** the integration of QMS requirements into business processes
4. **Promoting** the use of the process approach and risk-based thinking
5. **Ensuring** the availability of resources necessary for the QMS
6. **Communicating** the importance of effective quality management
7. **Directing** and supporting people to contribute to the effectiveness of the QMS
8. **Promoting** continual improvement
9. **Supporting** other management roles in their areas of responsibility

5.1.2 Customer Focus

Management ensures that:

Requirement	Implementation Method	Responsible
Customer requirements determined and met	Systematic analysis of requests, requirements review	Commercial Role
Risks that may affect conformity identified	Risk analysis per order, planned inspections	Quality Role
Customer satisfaction maintained and improved	Satisfaction surveys, complaint handling, KPI monitoring	Commercial Role

5.2 Quality Policy

5.2.1 Establishing the Quality Policy

The quality policy of Plus Sarl is founded on **five pillars** that guide all company activities and decisions:

Pillar 1: Customer Service Excellence

> Plus Sarl is committed to understanding, anticipating and satisfying the requirements of its customers worldwide, by providing monitoring and sourcing services of the highest quality.

Operational implementation:

- In-depth analysis of each customer request
- Transparent and regular communication
- Systematic measurement of customer satisfaction

Pillar 2: Rigor in Supplier Management

> Plus Sarl is committed to selecting, qualifying and evaluating its international suppliers according to strict and objective criteria, ensuring the conformity and reliability of the supply chain.

Operational implementation:

- Structured qualification process (SQA)
- Periodic supplier evaluations
- Classification and performance monitoring

Pillar 3: Product Conformity and Traceability

> Plus Sarl is committed to implementing rigorous inspections at each critical stage of production, ensuring product conformity to specifications and complete traceability.

Operational implementation:

- Structured inspection program (IPC, DUPRO, PSI, Loading Check)
- Comprehensive inspection documentation
- Effective nonconformity management

Pillar 4: Continual Improvement

> Plus Sarl is committed to continuously improving the effectiveness of its Quality Management System through data analysis, lessons learned and the implementation of corrective and preventive actions.

Operational implementation:

- Performance indicator monitoring (KPIs)
- Periodic management reviews
- PDCA cycle applied to all processes

Pillar 5: Competence Development

> Plus Sarl is committed to developing and maintaining the competencies of its team, by ensuring the adequacy between the aptitudes required by each role and the competencies held.

Operational implementation:

- Competency matrix by role (cf. process PS02 -- FM-PS02-MCO)
- Tailored training plans
- Periodic competency evaluations

5.2.2 Communication of the Quality Policy

Action	Medium	Frequency	Responsible
Initial distribution to all employees	Signed document, posting	Upon hiring	Management
Reminder and awareness	Team meetings	Quarterly	Management
Communication to external interested parties	Website, contractual documents	Continuous	Commercial Role
Relevance review	Management review	Annual	Management

5.2.3 Availability

The quality policy is:

- Documented and maintained as documented information
- Communicated, understood and applied within the organization
- Made available to relevant interested parties, upon request

5.3 Roles, Responsibilities and Authorities

5.3.1 Role Assignment

Management assigns responsibilities and authorities for relevant roles within the organization. The organizational structure of Plus Sarl is based on the following roles:

Role	Primary Responsibility
Management	Strategic management, quality policy, resource allocation
Commercial Role	Customer relations, business development, order management
Purchasing Role	International sourcing, supplier selection and management
Logistics Role	International transport and shipping coordination
Quality Role	Inspections, NC management, internal audits, QMS monitoring
Document Management Role	Document control, archiving, version control

5.3.2 QMS-Specific Responsibilities

Management ensures that the following responsibilities and authorities are assigned:

QMS Responsibility	Designated Role
Ensure QMS conformity with ISO 9001:2015 requirements	Quality Role
Report to Management on QMS performance	Quality Role
Promote customer focus within the organization	Commercial Role
Ensure QMS integrity during changes	Quality Role
Maintain up-to-date QMS documentation	Document Management Role
Raise personnel awareness of quality requirements	Management

5.3.3 Delegation of Authority

Decision Area	Primary Authority	Possible Delegation to
Quality policy approval	Management	-
Quality objectives validation	Management	-
Supplier selection	Purchasing Role	-
Product release	Quality Role	-
Customer order acceptance	Commercial Role	-
Corrective action initiation	Quality Role	Any role (within its scope)

Approved by	Management

6.1 Actions to Address Risks and Opportunities

6.1.1 Risk Identification Methodology

Plus Sarl applies a structured approach to identifying and addressing risks and opportunities:

1. **Identification:** inventory of risks and opportunities related to the context (cf. MQ_04)
2. **Analysis:** assessment of the likelihood of occurrence and severity of impact
3. **Prioritization:** ranking by criticality level
4. **Treatment:** definition of actions to mitigate risks or exploit opportunities
5. **Monitoring:** surveillance of the effectiveness of implemented actions

6.1.2 Evaluation Scale

Likelihood of occurrence:

Level	Label	Description
1	Rare	Less than once per year
2	Occasional	Once or twice per year
3	Likely	Several times per year
4	Frequent	Several times per quarter

Severity of impact:

Level	Label	Description
1	Minor	Negligible impact on operations
2	Moderate	Limited impact, manageable without difficulty
3	Major	Significant impact on quality or lead times
4	Critical	Serious impact on customer satisfaction or business sustainability

Criticality = Likelihood x Severity

Criticality Level	Range	Required Action
Low	1-4	Monitoring, no immediate action required
Medium	5-8	Reduction actions to be planned
High	9-12	Priority actions to be implemented
Critical	13-16	Mandatory immediate actions

6.1.3 Risk and Opportunity Register

Identified Risks

Ref.	Risk	Process	Likl.	Sev.	Crit.	Mitigation Action	Responsible
R-01	Product nonconformity detected late	P03	3	4	12	Strengthening intermediate inspections (IPC, DUPRO)	Quality Role
R-02	Failure of a strategic supplier	P02	2	4	8	Supplier panel diversification, backup suppliers	Purchasing Role
R-03	Delivery delay impacting customer satisfaction	P04	3	3	9	Proactive shipment tracking, safety margins on lead times	Logistics Role
R-04	Loss of key competencies due to staff departure	PS02	2	3	6	Knowledge documentation, cross-training plans	Management
R-05	Non-compliance with international regulatory requirements	P02/P04	2	4	8	Systematic regulatory watch, procedure updates	Quality Role
R-06	Communication error with the customer on specifications	P01	2	3	6	Formalized requirements review, written confirmation	Commercial Role

Ref.	Risk	Process	Likl.	Sev.	Crit.	Mitigation Action	Responsible
R-07	Loss of critical QMS data or documents	PS01	1	4	4	Regular backups, secure document management system	Document Mgmt Role
R-08	Exchange rate fluctuation impacting margins	P01/P02	3	2	6	Contractual revision clauses, currency hedging	Management

Identified Opportunities

Ref.	Opportunity	Process	Impact	Exploitation Action	Responsible
O-01	ISO 9001 certification as a commercial lever	P01	High	Active communication to prospects and customers	Commercial Role
O-02	Digitalization of inspection reports	P03	High	Deployment of real-time digital reporting tools	Quality Role
O-03	Expansion into new geographic markets	P01/P02	High	Prospecting for suppliers and customers in new regions	Commercial Role
O-04	Partnerships with international testing laboratories	P03	Medium	Establishment of agreements with accredited laboratories	Quality Role

6.2 Quality Objectives and Planning of Actions

6.2.1 Quality Objectives

The quality objectives of Plus Sarl are defined annually by Management, in alignment with the quality policy and management review results.

Ref.	Quality Objective	Indicator (KPI)	Target	Measurement Frequency	Responsible
QO-01	Maintain a high customer satisfaction rate	Average customer satisfaction score	>= 8/10	Semi-annual	Commercial Role
QO-02	Reduce supplier nonconformity rate	Number of NCs / Number of orders (%)	<= 5%	Quarterly	Quality Role
QO-03	Ensure on-time delivery compliance	On-time delivery rate (%)	>= 90%	Monthly	Logistics Role
QO-04	Ensure completion of planned inspections	Inspections completed / planned ratio	>= 95%	Monthly	Quality Role
QO-05	Improve QMS document control	Up-to-date documents rate (%)	>= 98%	Quarterly	Document Mgmt Role
QO-06	Develop personnel competencies	Training plan completion rate	>= 80%	Annual	Management

6.2.2 Planning of Actions to Achieve Objectives

Ref.	Planned Actions	Required Resources	Deadline	Responsible
QO-01	Implementation of systematic satisfaction surveys	Online survey tool	Q2 2026	Commercial Role
QO-02	Strengthening of supplier qualification criteria	Updated audit checklist	Q1 2026	Purchasing Role
QO-03	Implementation of logistics tracking dashboard	Tracking tool	Q2 2026	Logistics Role
QO-04	Forward planning of inspections at 4 weeks	Shared planning tool	Ongoing	Quality Role

Ref.	Planned Actions	Required Resources	Deadline	Responsible
QO-05	Quarterly review of documentation status	Document checklist	Quarterly	Document Mgmt Role
QO-06	Development of annual training plan	Training budget	Q1 2026	Management

6.3 Planning of Changes

6.3.1 QMS Change Management

Any significant QMS modification is subject to structured planning following this approach:

Step	Action	Description	Responsible
1	Identification of the need for change	Detection of need (audit, review, customer feedback, regulatory change)	Any role
2	Impact analysis	Assessment of consequences on processes, resources and performance	Quality Role
3	Change planning	Definition of actions, resources, responsibilities and deadlines	Quality Role
4	Approval	Validation of the change by Management	Management
5	Implementation	Implementation of the change according to the plan	Relevant role
6	Verification	Checking the effectiveness of the change	Quality Role
7	Documentation update	Updating of impacted documents	Document Mgmt Role

6.3.2 Change Register

A change register is maintained and contains:

- The description of the change
- The justification

- The impact analysis
- The actions implemented
- The result of the effectiveness verification

6.3.3 Criteria Triggering a Change Review

Criterion	Example
Organizational change	Modification of the role structure
Regulatory change	New import regulation
Significant lessons learned	Recurring major nonconformity
Specific customer request	New contractual requirement
Audit result (internal or external)	ISO 9001 audit nonconformity
Technological change	New information system

Normative References

ISO 9001:2015 Clause	Requirement
6.1	Actions to address risks and opportunities
6.1.1	Consideration of issues and requirements
6.1.2	Planning of actions
6.2	Quality objectives and planning to achieve them
6.2.1	Quality objectives
6.2.2	Planning of actions to achieve quality objectives
6.3	Planning of changes

Controlled document - Any printed copy is considered uncontrolled. Plus Sarl - Quality Management System ISO 9001:2015 - v0.7

Quality Manual - Chapter 7: Support

Document	MQ_07_Support
Version	v0.7
Date	2026-03-04
Classification	Internal
Process	PS01, PS02
Drafted by	Quality Role
Approved by	Management

7.1 Resources

7.1.1 General

Management determines and provides the resources needed for the establishment, implementation, maintenance and continual improvement of the QMS, taking into account:

- The capabilities and constraints of existing internal resources
- What needs to be obtained from external providers

7.1.2 People

Role	Indicative Headcount	Contract Type	Location
Management	1	Permanent	Headquarters
Commercial Role	As needed	Permanent / Freelance	Headquarters / International
Purchasing Role	As needed	Permanent / Freelance	Headquarters / International
Logistics Role	As needed	Permanent / Freelance	Headquarters / International
Quality Role	As needed	Permanent / Freelance	Headquarters / International
Document Management Role	As needed	Permanent / Freelance	Headquarters

Note: The detailed competency matrix is documented in process PS02 - Competence Management (FM-PS02-MCO), defining the aptitudes required and held for each role.

7.1.3 Infrastructure

Category	Elements	Responsible
Premises	Main office (headquarters)	Management
IT equipment	Computers, smartphones, tablets for inspections	Management

Category	Elements	Responsible
Software	Office suite, email, project management tools	Management
Communication	Telephony, video conferencing, professional email	Management
Document management system	Document management platform (secure cloud storage)	Document Mgmt Role
Transport	Vehicles / airline tickets for travel to supplier sites	Logistics Role

7.1.4 Environment for the Operation of Processes

Plus Sarl determines and manages the environment necessary for the operation of its processes:

Factor	Provision
Social	Collaborative work environment, open communication
Psychological	Stress reduction, work-life balance
Physical	Suitable working conditions, workplace ergonomics

7.1.5 Monitoring and Measuring Resources

Resource	Use	Verification
Measuring instruments	Dimensional checks during inspections	Per control plan
Test equipment	Functional testing at supplier site	Periodic calibration
Photographic equipment	Visual documentation of inspections	Regular verification
Inspection checklists	Standardization of quality controls	Quarterly review

7.1.6 Organizational Knowledge

Knowledge Source	Type	Capitalization Method
Lessons learned	Internal	Lessons learned database
Standards and regulations	External	Standards monitoring, subscriptions
Technical expertise	Internal	Procedure documentation, job descriptions

Knowledge Source	Type	Capitalization Method
Customer feedback	External	Complaint analysis and satisfaction surveys
Industry best practices	External	Training, conferences, professional networks

7.2 Competence

7.2.1 Competency Matrix by Role

Competency	Management	Commercial Role	Purchasing Role	Logistics Role	Quality Role	Document Mgmt Role
Strategic management	E	S	-	-	S	-
ISO 9001:2015 standards	S	B	B	B	E	S
Commercial negotiation	S	E	S	-	-	-
International sourcing	S	S	E	S	S	-
Supplier evaluation	B	S	E	-	E	-
International logistics	B	S	S	E	B	-
Incoterms and customs regulations	B	S	S	E	B	-
Inspection techniques	-	B	S	-	E	-
Nonconformity management	S	B	S	B	E	-
Internal audit	S	-	-	-	E	-
Document management	B	B	B	B	S	E
Foreign languages (English minimum)	S	E	E	S	S	B
IT tools	S	S	S	S	S	E

Legend: E = Expert (trained and can train) / S = Sufficient (autonomous) / B = Basic (general knowledge) / - = Not required

7.2.2 Competence Management

Action	Frequency	Responsible	Record
Competency evaluation	Annual	Management	Individual evaluation form
Gap identification	Annual	Management	Competency matrix
Training plan	Annual	Management	Annual training plan
Training delivery	Per schedule	Relevant role	Training certificate
Effectiveness evaluation	Post-training	Management	Effectiveness report

7.3 Awareness

All persons working within the framework of the QMS are made aware of the following elements:

Awareness Element	Medium	Frequency
Quality policy	Posted document, presentation	Upon onboarding, annual
Quality objectives relevant to their role	Dashboard, meetings	Quarterly
Contribution to the effectiveness of the QMS	Individual interviews	Annual
Consequences of not conforming to QMS requirements	Training, internal communication	Upon onboarding, as needed

7.4 Communication

7.4.1 Internal Communication

Subject of Communication	Sender	Recipient	Medium	Frequency
Quality policy and objectives	Management	All roles	Meeting, written document	Annual
Quality indicator results	Quality Role	Management, all	Dashboard	Monthly
Nonconformities and corrective actions	Quality Role	Relevant roles	NC report, email	At each occurrence
Management review	Management	All roles	Minutes	Semi-annual

Subject of Communication	Sender	Recipient	Medium	Frequency
QMS modifications	Quality Role	All roles	Internal memo	As needed
Supplier alerts	Purchasing Role	Quality Role, Management	Email, alert form	As needed

7.4.2 External Communication

Subject of Communication	Sender	Recipient	Medium	Frequency
Inspection reports	Quality Role	Customer	Email, platform	Per inspection
Commercial offers	Commercial Role	Customer / prospect	Email, letter	Per request
Supplier orders	Purchasing Role	Supplier	Email, purchase order	As needed
Supplier complaints	Quality Role	Supplier	Email, NC report	At each occurrence
Shipping documents	Logistics Role	Customer, freight forwarder	Email, platform	Per shipment
Regulatory information	Quality Role	Authorities, customers	Letter, portal	As needed

7.5 Documented Information

7.5.1 Document Hierarchy

The document management system of Plus Sarl is structured in **four levels**:

```

``` +-----+
| Level 1: Quality Manual (MQ) |
| Policy, commitment, overall vision | +-----+
| Level 2: Procedures (PR) |
| Process and method descriptions | +-----+
| Level 3: Work Instructions (IT) |
| Operational details, operating procedures | +-----+
| Level 4: Records (EN) |
| Completed forms, reports, evidence | +-----+ ```

```

### 7.5.2 Document Coding

Level	Prefix	Example	Description
1	MQ	MQ_05_Leadership	Quality Manual chapters
2	PR	PR_P02_Achats	Process procedures
3	IT	IT_P03_Inspection	Work instructions
4	EN	EN_P03_RapportNC	Records and forms

### 7.5.3 Control of Documented Information

Action	Responsible	Method
Creation	Issuing role	According to standard template
Verification	Quality Role	Conformity and consistency review
Approval	Management	Signature / electronic validation
Distribution	Document Management Role	Document platform, notification
Update	Issuing role	New version, revision history
Archiving	Document Management Role	Secure filing, retention period
Withdrawal of obsoletes	Document Management Role	Removal from distribution, marked as obsolete

### 7.5.4 Record Retention

Record Type	Retention Period	Storage Location
Inspection reports	5 years	Document platform
Nonconformity reports	5 years	Document platform
Supplier evaluations	5 years	Document platform
Management review minutes	5 years	Document platform
Internal audit reports	5 years	Document platform
Training records	Duration of employment + 2 years	Document platform
Contractual documents	10 years	Secure archive

# Quality Manual - Chapter 8: Operational Activities

Document	MQ_08_Realisation
Version	v0.7
Date	2026-03-04
Classification	Internal
Process	P01, P02, P03, P04
Drafted by	Quality Role
Approved by	Management

## 8.1 Operational Planning and Control

### 8.1.1 General

Plus Sarl plans, implements and controls the processes needed for the provision of its industrial monitoring and worldwide sourcing services, by determining:

- The requirements for products and services
- The acceptance criteria for products and services
- The resources needed for conformity
- The control of processes in accordance with established criteria
- The documented information to be retained

### 8.1.2 Control of Outsourced Processes

As a sourcing and monitoring company, Plus Sarl outsources production to international suppliers. Control of these outsourced processes is ensured by:

Control Means	Description	Responsible
Supplier qualification	Initial evaluation according to defined criteria (SQA)	Purchasing Role
Specifications	Detailed technical specification provided to the supplier	Commercial Role / Purchasing Role
In-process inspections	Intermediate checks at supplier site	Quality Role
Final inspection (PSI)	Conformity verification before shipment	Quality Role
Periodic evaluation	Supplier performance review	Purchasing Role / Quality Role

## 8.2 Requirements for Products and Services

### 8.2.1 Customer Communication

Communication Element	Medium	Responsible	Frequency
Information about services	Website, presentations	Commercial Role	Continuous
Handling of enquiries and quotations	Email, video conferencing	Commercial Role	Per request
Customer feedback	Surveys, calls	Commercial Role	Semi-annual
Complaint handling	Dedicated form, email	Commercial Role / Quality Role	At each occurrence
Customer property requirements	Specific procedures	Quality Role	As needed
Contingency actions	Phone, priority email	Management	As needed

### 8.2.2 Determining the Requirements for Products and Services

For each customer request, the following requirements are determined:

Requirement Type	Source	Determination Method
Customer-specified requirements	Customer specifications	Request analysis
Requirements not stated but necessary	Experience, industry standards	Internal technical review
Statutory and regulatory requirements	Applicable regulations	Regulatory watch
Plus Sarl internal requirements	Quality policy, procedures	Requirements review

### 8.2.3 Review of Requirements

Review Element	Validation Criterion	Responsible	Record
Technical specifications	Completeness and clarity	Quality Role	Review form
Delivery capability	Qualified supplier available	Purchasing Role	Review form
Lead times	Consistency with the request	Logistics Role	Review form
Commercial conditions	Profitability confirmed	Commercial Role	Review form
Regulatory requirements	Compliance verified	Quality Role	Review form

## 8.3 Design and Development

**Justified exclusion:** clause 8.3 (Design and development of products and services) is excluded from the scope of the Plus Sarl QMS. The company does not perform product design; this is carried out by customers or suppliers. Plus Sarl acts as a monitoring and sourcing service provider.

## 8.4 Control of Externally Provided Processes, Products and Services

### 8.4.1 Selection and Evaluation of International Suppliers

Plus Sarl selects and evaluates its suppliers worldwide according to objective and documented criteria.

#### Initial Selection Criteria

Criterion	Weight	Evaluation Method
Production capacity	20%	On-site audit, technical questionnaire
Quality system in place	20%	ISO certification, quality documentation
Track record and references	15%	Reference verification, seniority
Price competitiveness	15%	Quotation comparison, market analysis
On-time delivery	15%	Delivery history, contractual commitment
Regulatory compliance	10%	License and certification verification
Social and environmental responsibility	5%	CSR questionnaire, social audit

#### Supplier Quality Assurance (SQA)

The SQA (Supplier Quality Assurance) process comprises the following steps:

Step	Action	Description	Responsible
1	Pre-qualification	Documentary verification (licenses, certifications, capacity)	Purchasing Role
2	Initial audit	Production site visit, on-site evaluation	Quality Role
3	Sampling	Production and control of reference samples	Quality Role
4	Validation	Qualification decision based on results	Purchasing Role / Quality Role
5	Registration	Integration into the qualified supplier panel	Purchasing Role
6	Periodic monitoring	Continuous performance evaluation	Quality Role

### 8.4.2 Supplier Classification

Suppliers are classified using an **A/B/C** system based on their overall performance:

Class	Overall Score	Description	Associated Actions
<b>A</b>	$\geq 80/100$	High-performing supplier	Preferred supplier, reduced inspections possible, strengthened partnership
<b>B</b>	60-79/100	Acceptable supplier	Standard monitoring, improvement plan if declining trend
<b>C</b>	$< 60/100$	Supplier under surveillance	Mandatory improvement plan, enhanced inspections, re-evaluation at 3 months

### Periodic Rating Criteria

Criterion	Weight	Data Source
Quality of delivered products	35%	Inspection reports, NC rate
On-time delivery	25%	Logistics tracking, delivery history
Responsiveness and communication	20%	Subjective evaluation, response time
Document compliance	10%	Completeness of technical files
Continual improvement	10%	Corrective actions, score evolution

### 8.4.3 Re-evaluation and Sanctions

Situation	Action	Responsible	Deadline
Score $< 60/100$ for 2 periods	Formal improvement plan	Purchasing Role	Immediate
Recurring major NC ( $\geq 3$ occurrences)	Temporary suspension	Purchasing Role	Immediate
Improvement plan failure	Removal from qualified supplier list	Management	After evaluation
Fraud or falsification	Permanent exclusion	Management	Immediate

## 8.5 Production and Service Provision

### 8.5.1 Types of Inspections

Plus Sarl performs various types of inspections to ensure product conformity throughout the production cycle:

Inspection Type	Acronym	Timing	Objective	Indicative Control Rate
Initial production inspection	IPC	Start of production (10-20% completed)	Verify conformity of initial pieces, detect problems early	100% of initial lot
During production inspection	DUPRO	Production at 40-60% progress	Monitor quality in progress, verify schedule compliance	Sampling per AQL
Pre-shipment inspection	PSI	Production 100% complete, before packaging	Final conformity verification against specifications	Sampling per AQL (ISO 2859-1)
Loading check	Loading Check	At the time of container loading	Verify quantity, packaging, labeling and loading conditions	100% visual

### 8.5.2 Inspection Process

Step	Action	Description	Responsible
1	Planning	Scheduling the inspection according to the production schedule	Quality Role
2	Preparation	Specifications review, checklist preparation	Quality Role
3	On-site execution	Performing checks (visual, dimensional, functional)	Quality Role
4	Documentation	Drafting the inspection report with photos and measurements	Quality Role
5	Decision	Accept / Reject / Conditional acceptance	Quality Role
6	Communication	Sending the report to the customer and notification of result	Quality Role

### 8.5.3 Acceptance Criteria

Criterion	Method	Reference
Visual conformity	Visual inspection against reference sample	Customer specifications
Dimensional conformity	Measurements with calibrated instruments	Technical drawing / tolerances
Functional conformity	Functional testing	Customer technical specifications
Packaging conformity	Visual and physical verification	Packaging instructions
Labeling conformity	Visual verification	Customer and regulatory requirements
Quantity	Counting / weighing	Purchase order

## 8.6 Release of Products and Services

### 8.6.1 Release Process

Product release is a formal decision made by the **Quality Role** after verification of conformity with all specified requirements.

Release Decision	Condition	Subsequent Action
<b>Accepted</b>	All conformity criteria met	Shipment authorization by Logistics Role
<b>Conditionally accepted</b>	Minor deviations accepted by the customer	Documentation of deviations, written customer agreement
<b>Rejected</b>	Nonconformity(ies) identified	Initiation of the NC management process

### 8.6.2 Release Documented Information

Document	Content	Retention
Final inspection report	Control results, photos, measurements	5 years
Certificate of conformity	Declaration of conformity to requirements	5 years
Shipment authorization	Release validation	5 years
Customer agreement (if conditionally accepted)	Written customer validation	5 years

## 8.7 Control of Nonconforming Outputs

### 8.7.1 Nonconformity Detection

Nonconformities may be detected at various stages:

Detection Stage	Source	Detection Responsibility
IPC inspection	Inspection report	Quality Role
DUPRO inspection	Inspection report	Quality Role
PSI inspection	Inspection report	Quality Role
Loading Check	Loading report	Quality Role
Customer receipt	Customer complaint	Commercial Role
Supplier audit	Audit report	Quality Role

### 8.7.2 Product Nonconformity Treatment

Action	Description	Responsible	Deadline
Identification and isolation	Marking and segregation of NC products	Quality Role	Immediate
Recording	Documentation of the NC (NC form)	Quality Role	24 hours
Notification	Informing the customer and the supplier	Commercial Role / Purchasing Role	24 hours
Root cause analysis	Investigation of root causes	Quality Role	5 business days
Treatment decision	Rework, sorting, scrap, concession	Quality Role	Per decision
Corrective action	Implementation to prevent recurrence	Supplier / Quality Role	15 business days
Effectiveness verification	Checking the effectiveness of the action	Quality Role	At next order

### 8.7.3 Nonconforming Product Treatment Options

Option	Description	Condition for Application
Rework / Repair	Defect correction by the supplier	Correctable defect without quality impact
Sorting	Separation of conforming and nonconforming	Defect affecting part of the lot
Scrap	Destruction or scrapping	Non-correctable defect
Concession / Waiver	Acceptance as-is with customer agreement	Minor deviation, written customer agreement
Return to supplier	Return to supplier for replacement	Major defect, replacement required

# Quality Manual - Chapter 9: Performance Evaluation

Document	MQ_09_Evaluation
Version	v0.7
Date	2026-03-04
Classification	Internal
Process	PM01 - Strategic management
Drafted by	Quality Role
Approved by	Management

## 9.1 Monitoring, Measurement, Analysis and Evaluation

### 9.1.1 General

Plus Sarl determines:

- What needs to be monitored and measured
- The methods for monitoring, measurement, analysis and evaluation
- When the monitoring and measurement shall be performed
- When the results from monitoring and measurement shall be analyzed and evaluated

### 9.1.2 Customer Satisfaction

#### Methods for Measuring Satisfaction

Method	Description	Frequency	Responsible
Satisfaction survey	Structured questionnaire (scale 1-10) covering quality, lead times, communication, overall service	Semi-annual	Commercial Role
Complaint analysis	Tracking and categorization of received complaints	Continuous	Commercial Role / Quality Role
Customer retention rate	Tracking of recurring customers and order volumes (rolling 12 months)	Annual	Commercial Role
Informal feedback	Collection of comments during daily interactions	Continuous	Commercial Role

#### Satisfaction Survey Grid

Evaluated Criterion	Scale	Weighting
Quality of delivered products	1 to 10	30%
On-time delivery	1 to 10	25%
Communication quality	1 to 10	20%
Responsiveness to problems	1 to 10	15%
Value for money	1 to 10	10%

## Results Handling

Result	Action
Average score $\geq 8/10$	Maintain practices, identify best practices
Average score 6-7.9/10	Analyze areas for improvement, corrective action plan
Average score $< 6/10$	Management alert, priority action plan, immediate customer contact

### 9.1.3 Performance Indicators by Process

#### Process P01 - Sales Management

Indicator	Formula / Method	Target	Frequency	Responsible
Quotation conversion rate	Orders / Quotations issued (%)	$\geq 30\%$	Monthly	Commercial Role
Average response time to requests	Average response time (days)	$\leq 2$ days	Monthly	Commercial Role
Number of customer complaints	Complaint count	Downward trend	Quarterly	Commercial Role
Customer retention rate	Recurring customers / Total customers (%) over rolling 12 months	$\geq 70\%$	Annual	Commercial Role

#### Process P02 - Purchasing and Sourcing

Indicator	Formula / Method	Target	Frequency	Responsible
Class A supplier rate	Class A suppliers / Active suppliers (%)	$\geq 60\%$	Semi-annual	Purchasing Role

Indicator	Formula / Method	Target	Frequency	Responsible
Number of newly qualified suppliers	Count	>= 4/year	Annual	Purchasing Role
Supplier NC rate	Supplier NCs / Orders (%)	<= 5%	Quarterly	Quality Role
Average qualification lead time	Average SQA process duration (days)	<= 30 days	Semi-annual	Purchasing Role

### Process P03 - Quality Control and Monitoring

Indicator	Formula / Method	Target	Frequency	Responsible
Inspection completion rate	Inspections performed / planned (%)	>= 95%	Monthly	Quality Role
First-pass acceptance rate	Lots accepted first time / Total lots (%)	>= 85%	Monthly	Quality Role
NC resolution time	Average NC closure duration (days)	<= 15 days	Quarterly	Quality Role
Number of critical NCs	Count of critical-level NCs	0	Monthly	Quality Role

### Process P04 - Logistics and Shipping

Indicator	Formula / Method	Target	Frequency	Responsible
On-time delivery rate	On-time deliveries / Total deliveries (%)	>= 90%	Monthly	Logistics Role
Logistics complaint rate	Logistics complaints / Shipments (%)	<= 2%	Quarterly	Logistics Role
Shipping document compliance	Compliant documents / Total documents (%)	>= 98%	Monthly	Logistics Role
Average transit time	Average transit time per corridor (days)	Per corridor (defined by region)	Monthly	Logistics Role

### Support Process PS01 - Document Management

Indicator	Formula / Method	Target	Frequency	Responsible
Up-to-date document rate	Up-to-date documents / Total documents (%)	>= 98%	Quarterly	Document Mgmt Role
Document update lead time	Average update duration (days)	<= 5 days	Quarterly	Document Mgmt Role

### Support Process PS02 - Competence Management

Indicator	Formula / Method	Target	Frequency	Responsible
Training plan completion rate	Trainings completed / planned (%)	>= 80%	Annual	Management
Critical competency coverage rate	Competencies >= S / Required critical competencies (%)	>= 90%	Annual	Quality Role

### Management Process PM01 - Strategic Management

Indicator	Formula / Method	Target	Frequency	Responsible
Quality objective achievement rate	Objectives achieved / Objectives defined (%)	>= 80%	Annual	Management
Improvement program completion rate	Actions completed / planned (%)	>= 80%	Annual	Management

## 9.2 Internal Audit

### 9.2.1 Internal Audit Program

Plus Sarl plans, establishes, implements and maintains an internal audit program covering all QMS processes.

#### Audit Program Principles

Element	Provision
Frequency	At least annual for each process
Reference standard	ISO 9001:2015 and ISO 19011:2018 (guidelines)
Independence	The auditor must not audit their own area of responsibility

Element	Provision
Competence	Auditor trained in audit techniques (internal or external)
Planning	Annual program approved by Management

### Typical Annual Schedule

Period	Audited Process	ISO Clauses Covered	Auditor
Q1	P01 - Sales management	8.2, 9.1.2	Quality Role
Q1	PS01 - Document management	7.5	Quality Role
Q2	P02 - Purchasing and sourcing	8.4	Quality Role
Q2	P03 - Quality control and monitoring	8.5, 8.6, 8.7	External auditor
Q3	P04 - Logistics and shipping	8.5	Quality Role
Q3	PM01 - Strategic management	5.1, 5.2, 5.3, 6.1, 6.2	External auditor
Q3	PS02 - Competence management	7.2	External auditor
Q4	PS03 - Continual improvement	10.1, 10.2, 10.3	Quality Role
Q4	All processes (follow-up audit)	Clauses with previous NCs	Quality Role

### 9.2.2 Internal Audit Process

Step	Action	Description	Responsible
1	Planning	Notification to the process owner, audit plan issuance	Quality Role
2	Preparation	Document review, audit checklist development	Auditor
3	Opening meeting	Presentation of scope, objectives and methodology	Auditor
4	Execution	Interviews, observations, examination of records	Auditor

Step	Action	Description	Responsible
5	Closing meeting	Presentation of preliminary findings	Auditor
6	Audit report	Report drafting with findings, NCs and observations	Auditor
7	Corrective action plan	Action definition by the auditee	Process owner
8	Follow-up	Verification of implementation and effectiveness	Quality Role

### 9.2.3 Audit Finding Classification

Finding Type	Definition	Required Action
Major nonconformity	Systemic non-compliance with an ISO 9001 or regulatory requirement	Mandatory corrective action within 30 days
Minor nonconformity	Isolated deviation from a requirement	Corrective action within 60 days
Observation	Identified improvement point without deviation	Recommendation, action to be considered
Strength	Good practice worthy of highlighting	Capitalization, sharing

## 9.3 Management Review

### 9.3.1 Review Organization

Element	Provision
Frequency	Semi-annual (minimum annual)
Participants	Management, Commercial Role, Purchasing Role, Logistics Role, Quality Role, Document Management Role
Facilitation	Management
Minutes	Quality Role
Distribution	All roles

### 9.3.2 Management Review Inputs

Ref.	Input Element	Data Source	Preparation Responsibility
E-01	Status of actions from previous management reviews	Previous minutes	Quality Role
E-02	Changes in external and internal issues	Context analysis (MQ_04)	Management
E-03	Information on process performance and product conformity	Dashboards, reports	Quality Role
E-04	Nonconformities and corrective actions	NC register	Quality Role
E-05	Monitoring and measurement results	KPI indicators	Quality Role
E-06	Audit results (internal and external)	Audit reports	Quality Role
E-07	External provider (supplier) performance	Supplier evaluations	Purchasing Role
E-08	Customer satisfaction	Surveys, complaints	Commercial Role
E-09	Adequacy of resources	Resource status	Management
E-10	Effectiveness of actions taken to address risks and opportunities	Risk register (MQ_06)	Quality Role
E-11	Opportunities for improvement	Suggestions, lessons learned	All roles
E-12	Competency status and training plan	Competency matrix (PS02)	Management

### 9.3.3 Management Review Outputs

Ref.	Output Element	Implementation Responsibility
S-01	Decisions relating to improvement opportunities	Management
S-02	Decisions relating to any changes to the QMS	Management / Quality Role
S-03	Identified resource needs	Management
S-04	Quality objectives revised or confirmed	Management
S-05	Actions to be taken with responsible parties and deadlines	Relevant roles

### 9.3.4 Follow-up of Actions from the Review

Element	Provision
Recording	Management review minutes
Action tracking	Tracking table with responsible party, deadline and status
Verification	Progress review at each subsequent management review
Retention	5 years minimum

### Normative References

ISO 9001:2015 Clause	Requirement
9.1	Monitoring, measurement, analysis and evaluation
9.1.1	General
9.1.2	Customer satisfaction
9.1.3	Analysis and evaluation
9.2	Internal audit
9.2.1	Audit program
9.2.2	Audit planning and conduct

*Controlled document - Any printed copy is considered uncontrolled. Plus Sarl - Quality Management System ISO 9001:2015 - v0.7*

# Quality Manual - Chapter 10: Improvement

Document	MQ_10_Amelioration
Version	v0.7
Date	2026-03-04
Classification	Internal
Process	PS03 - Continual improvement
Drafted by	Quality Role
Approved by	Management

## 10.1 General

Plus Sarl determines and selects opportunities for improvement and undertakes the necessary actions to meet customer requirements and enhance customer satisfaction. Improvement covers:

- Improving products and services to meet requirements and to address future needs and expectations
- Correcting, preventing or reducing undesired effects
- Improving the performance and effectiveness of the Quality Management System

### Sources of Improvement

Source	Data Type	Analysis Responsibility
Internal audit results	Findings, NCs, observations	Quality Role
Customer complaints	Complaint forms	Commercial Role
Product nonconformities	NC reports	Quality Role
Supplier evaluations	Scores and trends	Purchasing Role
Performance indicators	KPI dashboards	Quality Role
Management reviews	Minutes, decisions	Management
Employee feedback	Suggestions, lessons learned	All roles
Competitive and standards watch	Watch reports	Quality Role

## 10.2 Nonconformity and Corrective Action

### 10.2.1 Nonconformity Treatment Process in 6 Steps

The treatment of nonconformities follows a structured process in **six steps**:

#### Step 1: Detection and Recording

Action	Description	Responsible	Deadline
NC detection	Identification during an inspection, audit, complaint or internal check	Any role	Immediate
Recording	Opening of a nonconformity form with factual description	Quality Role	24 hours
Unique number assignment	Sequential reference NC-YYYY-NNN (e.g.: NC-2026-001)	Quality Role	24 hours
Initial classification	Categorization according to the severity grid	Quality Role	24 hours

### Step 2: Immediate Action (Containment)

Action	Description	Responsible	Deadline
NC product isolation	Physical separation or marking of nonconforming products	Quality Role	Immediate
Notification of concerned parties	Informing the customer, supplier and internal roles	Commercial Role / Purchasing Role	24 hours
Securing	Prevention of use or shipment of the NC product	Quality Role / Logistics Role	Immediate

### Step 3: Root Cause Analysis

Analysis Method	Description	Application
5 Whys	Iterative questioning to trace back to the root cause	Simple NCs, linear causes
Ishikawa Diagram	Cause analysis by category (5M: Material, Method, Manpower, Environment, Machine)	Complex NCs, multiple causes
Cause Tree	Graphical representation of causal chains	Serious or recurring NCs

Element to Analyze	Key Questions
Material	Was the product/material compliant with specifications?
Method	Was the procedure followed? Was it adequate?
Manpower	Was the personnel competent and trained?
Environment	Was the production environment adequate?
Machine	Were the equipment suitable and in good condition?

#### Step 4: Definition and Implementation of Corrective Actions

Action	Description	Responsible	Deadline
Corrective action definition	Precise description of the action aimed at eliminating the root cause	Quality Role	5 days
Action validation	Approval by the competent responsible party	Management / Quality Role	2 days
Implementation	Implementation of the corrective action	Relevant role	15 days
Documentation	NC form update with actions taken	Quality Role	Ongoing

#### Step 5: Effectiveness Verification

Action	Description	Responsible	Deadline
Implementation check	Verification that the action was implemented as planned	Quality Role	Post-implementation
Effectiveness evaluation	Verification that the root cause has been eliminated	Quality Role	30-90 days
Non-recurrence check	Monitoring to confirm absence of recurrence	Quality Role	3 months
Closure decision	NC form closure if effectiveness is confirmed	Quality Role	After verification

#### Step 6: Capitalization and Lessons Learned

Action	Description	Responsible
Document update	Revision of procedures or instructions if necessary	Document Mgmt Role
Internal communication	Sharing of lessons learned with relevant roles	Quality Role
Risk register update	Adjustment of risk analysis if necessary (cf. MQ_06)	Quality Role
Integration in management review	Presentation of significant NCs and trends	Quality Role

### 10.2.2 Nonconformity Classification (4 Levels)

Level	Category	Description	Treatment Deadline	Approval Required
1	<b>Minor</b>	Isolated deviation with no significant impact on product conformity or customer satisfaction	30 days	Quality Role
2	<b>Significant</b>	Deviation partially affecting conformity or requiring a structured corrective action	15 days	Quality Role
3	<b>Major</b>	Systematic deviation or significantly impacting product conformity, customer satisfaction or QMS effectiveness	5 days	Management
4	<b>Critical</b>	Deviation compromising product safety, regulatory compliance or potentially causing serious consequences for the customer	Immediate	Management

### 10.2.3 Escalation Matrix

NC Level	Notification	Treatment Decision	Follow-up
Minor	Quality Role	Quality Role	Quality Role
Significant	Quality Role, Relevant role	Quality Role	Quality Role
Major	Management, Quality Role, Customer	Management	Quality Role
Critical	Management, Customer, Supplier	Management	Management / Quality Role

## 10.3 Continual Improvement

### 10.3.1 PDCA Cycle (Plan-Do-Check-Act)

Plus Sarl applies the PDCA cycle (Deming wheel) as the fundamental method of continual improvement at all levels of the QMS.

`` +-----+ | PLAN | | - Identify opportunities | | - Define objectives | | - Plan actions | +-----+ | v +-----+

DO

+-----+ | v +-----+ | CHECK | | - Measure results | | - Compare to objectives | | - Analyze deviations | +-----+ | v +-----+

ACT

+-----+ ``

### 10.3.2 PDCA Application by Process

Process	PLAN	DO	CHECK	ACT
P01	Sales objectives, action plan	Prospecting, quotations, customer follow-up	Sales KPIs, customer satisfaction	Sales strategy adjustment
P02	Selection criteria, target panel	Qualification, orders, evaluations	Supplier scores, NC rate	Panel revision, corrective actions
P03	Inspection plan, checklists	Inspections, reports, decisions	Acceptance rate, inspection effectiveness	Method adjustment, training
P04	Logistics schedule, lead time objectives	Shipments, tracking, documentation	On-time delivery rate, complaints	Flow optimization, new partners

Process	PLAN	DO	CHECK	ACT
PS01	Document plan, objectives	Creation, updating, distribution	Up-to-date document rate, document audits	Procedure revision, training
PM01	Policy, quality objectives	Oversight, resource allocation	Management review, overall KPIs	Strategy revision, new objectives

### 10.3.3 Continual Improvement Tools

Tool	Application	Frequency of Use
Trend analysis	Monitoring KPI evolution over time	Monthly
Benchmarking	Comparison with industry best practices	Annual
Brainstorming	Team generation of improvement ideas	As needed
Pareto analysis	Identification of main NC causes (80/20 rule)	Quarterly
Lessons learned (REX)	Capitalization of lessons learned after each significant project	At each project closure

### 10.3.4 Annual Improvement Program

Element	Description	Responsible
Performance review	Analysis of the past year's results	Management / Quality Role
Identification of improvement areas	Priority selection based on data	Management
Improvement action plan	Actions defined with responsible parties, resources and deadlines	Quality Role
Quarterly follow-up	Progress review of improvement actions	Quality Role
Annual assessment	Evaluation of the improvement program effectiveness	Management

### 10.3.5 Continual Improvement Indicators

Indicator	Formula / Method	Target	Frequency
Number of improvement actions launched	Count	>= 6/year	Annual
Improvement action completion rate	Actions completed / planned (%)	>= 80%	Semi-annual
Corrective action effectiveness rate	Effective CAs / Closed CAs (%)	>= 90%	Annual
Overall NC rate trend	Trend over rolling 12 months	Continuous decrease	Quarterly
Number of NC recurrences	Identical NCs over 12 months	0 recurrence	Annual

## Normative References

ISO 9001:2015 Clause	Requirement
10.1	General
10.2	Nonconformity and corrective action
10.2.1	Reaction to nonconformity
10.2.2	Retention of documented information
10.3	Continual improvement
