1. Introduction

1.1 Purpose of the Quality Manual

This Quality Manual constitutes the summary document of the Quality Management System (QMS) of Plus Sarl, in compliance with the ISO 9001:2015 standard.

It presents:

- the organization of the company and its context
- the quality policy and quality objectives
- the process map
- the provisions taken to satisfy each requirement of the standard

This document is intended to:

- serve as an internal reference for the Managing Director
- present the QMS to the certification body SQS
- communicate the quality organization to interested parties

1.2 Normative reference

- **ISO 9001:2015** — Quality management systems — Requirements
- **ISO 9000:2015** — Quality management systems — Fundamentals and vocabulary

1.3 Document convention

Legend:  [TO BE COMPLETED] = mandatory, missing |  [RECOMMENDED] = recommended |  = already completed |  [TO BE VERIFIED] = to be confirmed

References in parentheses (e.g. *cf. CTX-QUA-001 §5*) refer to the detailed documents of the QMS.

2. Company Presentation

Element	Detail
Company name	Plus Sarl
Address	Route de Montet 11, 1588 Cudrefin, Switzerland
Canton	Fribourg (district de la Broye)
Legal form	Limited liability company (Sarl)
IDE No.	CH-645.4.101.228-7 
Year of foundation	2007
Managing Director	Roxane Wicky
Number of employees	1 (the Managing Director)
Associates	Roxane Wicky, Olav Wicky, Capucine Wicky
Fiduciary	Paradiso 
Certification body	SQS 
Customers	~10 active customers, mainly European 

Main activity

Plus Sarl specializes in **industrial coordination between European customers and Chinese manufacturing partners**. The activity covers:

- the design, development and production of industrial parts
- the sourcing and procurement of existing parts
- the management of the international logistics chain

Plus Sarl does not carry out production directly. Production is performed by industrial partners located in China. The company coordinates this production in order to guarantee the conformity of parts to the technical and quality requirements of customers.

(cf. CTX-QUA-001 §1.1)

Industrial partners

Partner	Activity	Relationship
Yuyao Mould Factory	Mould manufacturing and injection	Main and long-standing partner (since 2007) 
Oukailuo (Yuyao, China)	Hardware and fasteners	Second production partner 

Value chain

European customer --> Plus Sarl --> Chinese partners --> Plus Sarl --> European customer
(need, (coordination, (manufacturing (control, (delivery)
specification) monitoring, moulds and quality
control) parts) monitoring)

Tools and systems

Tool	Usage
FileMaker	Data management, order tracking, pricing, transport
Email	Communication with customers and partners
WeChat	Communication with Chinese partners
Gramatec SA (Switzerland)	FileMaker hosting, automatic backup, guaranteed restoration 

Chapter 4 — Context of the Organization

4.1 Understanding the organization and its context

Plus Sarl has identified the internal and external issues relevant to its strategic direction and likely to influence its ability to achieve the intended results of its QMS.

External issues

- Dependence on Chinese industrial partners for tooling and production
- Deadlines and logistics constraints of international transport
- Customs and regulatory requirements for import/export
- Variations in production costs, transport costs and raw materials
- High customer expectations in terms of quality, technical conformity and deadline compliance

Internal issues

- One-person organization requiring strong priority management and planning
- Need for fluid and continuous communication with customers, suppliers and logistics partners
- Maintaining a high level of documentary, technical and organizational control
- Ability to guarantee responsiveness, confidentiality and lasting customer satisfaction

SWOT Analysis

The complete SWOT analysis (strengths, weaknesses, opportunities, threats) is documented in **CTX-QUA-001 §2** and is reviewed at least once a year during the management review.

Key points:

Strengths	Weaknesses
Technical expertise in injection mould development	One-person organization: limited human resources
Flexibility and responsiveness (micro-enterprise)	Dependence on two Chinese partners
Long-standing trust relationship with Yuyao Mould Factory (since 2007)	Geographical distance from production
In-depth knowledge of the European market	No in-house production capacity
Opportunities	Threats
ISO 9001 certification via SQS = access to new markets	Failure or unavailability of a Chinese partner
Continual improvement of customer satisfaction	Significant delays in international transport
Supplier diversification in Asia (Oukailuo in place)	Major quality defects on manufactured products

(cf. CTX-QUA-001 §2 for the complete matrix)

4.2 Understanding the needs and expectations of interested parties

The relevant interested parties and their requirements are identified:

Interested party	Main requirements
European customers (~10 active)	Technical conformity, deadline compliance, responsive communication, confidentiality
Chinese partners (Yuyao Mould Factory, Oukailuo)	Clear transmission of requirements, effective coordination
Carriers and freight forwarders	Delivery reliability, integrity of goods
Customs authorities	Import/export regulatory compliance
Fiduciary Paradiso	Administrative, accounting and tax compliance
Associates (Roxane, Olav, Capucine Wicky)	Profitability, sustainability of the company
SQS (certification body)	ISO 9001:2015 compliance

(cf. CTX-QUA-001 §3)

4.3 Determining the scope of application

Scope of Application of the QMS:

Industrial coordination between European customers and Chinese manufacturing partners. Design, development and production of industrial parts. Sourcing and procurement of existing parts. Management of the international logistics chain.

Site covered: Route de Montet 11, 1588 Cudrefin, Switzerland

Exclusion:

Excluded clause	Justification
8.3 — Design and development	Plus Sarl does not design the products. The designs, specifications and intellectual property belong to the customers. Plus Sarl acts solely as an industrial coordinator. This exclusion does not affect the ability to provide conforming products.

(cf. DOM-QUA-001)

4.4 Quality management system and its processes

The QMS of Plus Sarl is structured around **10 processes**:

Type	Code	Process	Associated document
Management	M1	Leadership and strategy	M1-DIR-001

Type	Code	Process	Associated document
	M2	Continual improvement	PRO-NCF-001, PRO-ACR-001
	M3	Management review	FOR-RDR-001
Operational	O1	Commercial	CTX-QUA-001 (§1.2, 1.3)
	O2	Purchasing and subcontracting	PRO-ACH-001, FIC-PRO-001, FOR-AQF-001, FOR-AQF-002
	O3	Logistics and delivery	PRO-LOG-001, FIC-PRO-002
	O4	Quality control	PRO-NCF-001, FOR-CTR-001
Support	S1	Document management	PRO-DOC-001
	S2	Competencies, training and awareness	FOR-CMP-001
	S3	Resources and infrastructure	CTX-QUA-001 (§7)

Process map representation

The interactions between processes, the interaction matrix and the main flow are documented in **CRT-QUA-001** (sections 2 and 3).

The visual file of the process map is available: **CRT-QUA-001.drawio**.

Chapter 5 — Leadership

5.1 Leadership and commitment

As Managing Director and sole employee of Plus Sarl, Roxane Wicky is personally committed to:

1. Assuming responsibility for the effectiveness of the QMS and reporting on its performance
2. Establishing the quality policy and quality objectives compatible with the strategic direction
3. Integrating the QMS requirements into operational processes
4. Promoting risk-based thinking and the process approach
5. Ensuring the availability of necessary resources
6. Communicating on the importance of quality management
7. Ensuring the QMS achieves the intended results
8. Directing and supporting people (Managing Director + external partners)
9. Promoting continual improvement
10. Supporting other relevant management roles

Customer focus (clause 5.1.2)

The Managing Director is committed to ensuring that:

- customer requirements are determined, understood and met
- risks and opportunities likely to affect conformity are taken into account
- increasing customer satisfaction is a permanent objective

Operational commitment

Management is actively involved through:

- supervising the management of customer requests and commercial offers
- analyzing pricing conditions
- monitoring transport and deadline compliance
- coordinating in case of quality issues
- implementing corrective actions in case of dysfunction

Crisis situation management:

- Logistics delay: reassessment of partners, adaptation of transport modes
- Production delay: reinforced monitoring, planning adjustment
- Product NC: root cause analysis, corrective actions, follow-up on subsequent controls

(cf. M1-DIR-001 §2)

5.2 Quality policy

The quality policy of Plus Sarl is established, communicated and maintained.

Mission: Plus Sarl specializes in industrial coordination between European customers and Chinese manufacturing partners.

Management commitments:

- 1. Handle customer requests with responsiveness and rigor
- 2. Ensure the consistency of commercial offers and the control of pricing conditions
- 3. Effectively coordinate industrial partners to guarantee quality and conformity
- 4. Monitor production, transport and delivery operations
- 5. Manage nonconformities and implement actions to prevent their recurrence
- 6. Protect the confidentiality of technical information and intellectual property
- 7. Continually improve the organization and performance of the QMS

Strategic quality axes:

- Delivery deadline compliance above 95%
- Maximum 3 NCs per customer per year
- Average customer response time under 24h
- Strengthening the quality partnership with Yuyao Mould Factory and Oukailuo
- Control of the international logistics chain

Signature: Management Plus Sarl — 19/02/2026 — Cudrefin 

(cf. POL-QUA-001)

5.3 Roles, responsibilities and authorities

Functional organization chart

All functions are assumed by Roxane Wicky, sole Managing Director.

Responsibilities by function

Function	Scope
Management	Strategy, quality policy, objectives, management review, continual improvement
Commercial	Customer needs analysis, offers, orders, complaints
Purchasing	Supplier selection and evaluation, production coordination, quality requirements
Logistics	International transport, shipping documents, delivery tracking

Function	Scope
Quality	QMS management, document control, NCs, corrective actions, internal audits

Internal audit

The internal audit is carried out by **Capucine Wicky & Olav Wicky** (shareholders of Plus Sarl). The independence requirement of clause 9.2.2 c) is satisfied: the auditors do not audit their own work. ●

(cf. M1-DIR-001 §3, 4, 5, 6)

Chapter 6 — Planning

6.1 Actions to address risks and opportunities

Plus Sarl identifies and analyzes the risks and opportunities likely to influence its ability to provide conforming products and to improve customer satisfaction.

Main risks identified

#	Risk	Probability	Impact	Level	Main action
R1	Loss of a major customer	Low	High	Medium	Maintaining trust relationship, diversification
R2	Failure of a Chinese partner	Low	Very high	High	Reinforced communication, Oukailuo as second partner
R3	Major quality defects	Medium	High	High	Rapid NC management, replacement, reinforced controls
R4	International transport delays	Medium	High	High	Carrier selection, safety margins
R5	Customs risks	Low	Medium	Low	Controllable level, rigorous documentary monitoring

Main opportunities

- Optimization of delivery deadlines
- Strengthening of production quality
- Continual improvement of customer satisfaction
- Access to new markets through ISO 9001 certification

The effectiveness of actions is evaluated during indicator monitoring, internal audits and the management review.

(cf. CTX-QUA-001 §5)

6.2 Quality objectives and planning of actions

Five quality objectives are defined for the year 2026:

#	Objective	Indicator	Target
1	Delivery deadline compliance	% of orders delivered on time	>= 95%
2	Conformity of delivered products	No. of NCs per customer per year	Max 3 NCs/customer/year
3	Control of pricing conditions	Offer validation rate	Offers validated without major renegotiation

#	Objective	Indicator	Target
4	Customer response time	Average email response time	24-48H
5	Overall customer satisfaction	Absence of major complaint	Satisfaction confirmed (~10 customers)

Monitoring is quarterly (objectives 1-4) or semi-annual (objective 5). Results are presented during the management review.

(cf. OBJ-QUA-001)

6.3 Planning of changes

Plus Sarl ensures that any change likely to impact conformity, deadlines, commercial conditions or the organization is analyzed, planned and controlled before implementation.

Types of changes: introduction of a new partner, change of supplier or carrier, product or tooling modification, logistics or organizational evolution.

Process:

1. Impact analysis by relevant process (O1-O4)
2. Customer information and validation if necessary
3. Controlled implementation (trials or first implementation)
4. Update of documents and integration of risks
5. Review during the management review

(cf. CTX-QUA-001 §6)

Chapter 7 — Support

7.1 Resources

General

Plus Sarl determines and provides the resources necessary to establish, maintain and improve its QMS, including:

- human resources
- digital and material infrastructure
- external resources related to outsourced processes

Human resources

The competencies required for the functions of management, commercial, industrial coordination, logistics and quality are defined in chapter 5.3. The Managing Director has performed all of these functions since 2007.

Infrastructure

Infrastructure	Usage
Computer equipped with software	Administrative and technical management
FileMaker system	Product tracking, orders, pricing, transport ●
Email	Formal exchanges with partners and customers ●
Internet access	Communication, logistics tracking ●
WeChat application	Operational exchanges with Chinese partners ●
Mobile phone	Availability and responsiveness ●
Gramatec SA hosting	Automatic FileMaker backup, guaranteed restoration (Switzerland) ●

Work environment

The work environment ensures data confidentiality, communication reliability and responsiveness in order management.

External resources — Outsourced processes

Partner	Activity	Monitoring
Yuyao Mould Factory	Moulds and injection	Quality Agreement, annual evaluation (FOR-EVF-001) ●
Oukailuo (Yuyao)	Hardware and fasteners	Quality Agreement (FOR-AQF-002), annual evaluation ●
ECAM (China)	Main carrier, contact Sofia	Very positive evaluation for years ●
Paradiso	Fiduciary	Mandate contract ●

Partner	Activity	Monitoring
Freight forwarders	International transport	Defined by price, quality or port of arrival ●

(cf. CTX-QUA-001 §7)

7.2 Competencies

The competencies of the Managing Director are documented in the register FOR-CMP-001:

- **7 key competencies identified:** availability, priorities, assessment of limits, interpersonal skills, problem solving, English communication, critical travel
- **Competency maintenance:** daily experience, continuous communication with partners, customer feedback, field practice, technical monitoring, performance analysis

Extension to suppliers: Plus Sarl ensures that industrial partners have the necessary technical competencies. Continuous evaluation via deadline compliance, parts conformity, relationship stability.

Initial training and experience:

- Commerce diploma (Neuchâtel) ●
- International makeup and aesthetics diplomas ●
- Federal certificate in medical aesthetics ●
- Executive assistant at Plus Sarl (2013-2016) ●
- Managing Director of Plus Sarl (2016-present) ●
- Field training in Switzerland and China on numerous occasions ●

(cf. FOR-CMP-001 §1-4)

7.3 Awareness

The Managing Director is directly involved in the understanding, application and improvement of the QMS. Awareness covers:

- the quality policy (cf. POL-QUA-001)
- the quality objectives (cf. OBJ-QUA-001)
- the importance of customer satisfaction
- the requirements for product and service conformity
- the consequences of deviating from the QMS requirements

Awareness means: integration into daily activities, communication of priorities and objectives, analysis of NCs and customer feedback, management review.

(cf. FOR-CMP-001 §5)

7.4 Communication

External communication

Interested party	Main channel	Secondary channel
European customers	Email	Telephone (emergencies)
Chinese partners	WeChat	Email
Carriers	Email	WeChat
Fiduciary Paradiso	Email	Telephone
Customs authorities	Email / official portal	Telephone

Confidentiality control

Plus Sarl ensures the protection of technical, commercial and contractual information:

- customer data treated as confidential
- secured system access
- information transmitted only to relevant parties
- partners informed of the confidential nature

(cf. CTX-QUA-001 §7.6-7.7, M1-DIR-001 §7)

7.5 Documented information

The QMS comprises **26 documents** managed according to procedure PRO-DOC-001:

Document management:

- Creation, approval, distribution, update and archiving by the Managing Director
- Systematic codification (POL, DOM, CTX, CRT, OBJ, M1, FIC, PRO, FOR, CHK, LST)
- Storage: FileMaker, local files, email archives, WeChat, Chinese partners, fiduciary
- Automatic backup at Gramatec SA (Switzerland), guaranteed restoration 
- Retention: 3 years (QMS records), 5 years (orders), 10 years (invoices)

Control of documented information (clause 7.5):

Plus Sarl ensures the accessibility, legibility, retention and protection of all documented information.

Technical, commercial and contractual data are treated as strictly confidential. 5 protection measures: secured access, limitation to relevant contacts, structured organization, database protection, controlled transmission. 

The master list of documents and the document management list are kept up to date in PRO-DOC-001 §8-9.

(cf. PRO-DOC-001)

Chapter 8 — Operational Activities Realization

8.1 Operational planning and control

Operational activities are planned and controlled through the 4 operational processes (O1 to O4) and the main flow described in the process map.

Main flow (12 steps):

1. Reception of the customer request (O1)
2. Preliminary analysis and order review (O1/O2/O4) — including impact analysis if modification (clause 6.3)
3. Consultation of industrial partners (O1/O2/O3)
4. Validation and recording in FileMaker (O1/S1)
5. Technical coordination (O2)
6. Manufacturing launch (O2)
7. Pre-shipment quality control (O4)
8. Logistics preparation (O3)
9. Transport monitoring (O3)
10. Confirmation of reception by the customer (O3/O1)
11. Invoicing and follow-up (O1)
12. Traceability and improvement (S1)

(cf. CRT-QUA-001 §3)

8.2 Requirements for products and services

Determination of requirements (clause 8.2)

Plus Sarl determines **6 types of requirements** applicable to each order:

1. Technical specifications (drawings, materials, tolerances)
2. Quantities and deadlines
3. Legal and regulatory requirements (customs, standards)
4. Applicable standards
5. Delivery conditions
6. Implicit requirements (packaging, marking, certificates)

Plus Sarl reserves the **right to refuse** an order outside its area of competence (clause 8.1). ●

Order review

Each customer request (order, quotation, modification, complaint) is subject to a preliminary analysis:

Aspect	Process
Understanding of needs	O1 — Commercial

Aspect	Process
Determination of 6 types of requirements	O1 — Commercial
Technical and logistics feasibility	O2 — Purchasing & subcontracting
Quality requirements	O4 — Quality control

After validation: recording in FileMaker, acknowledgment of receipt to the customer.

Any modification is subject to analysis, partner validation if necessary, customer confirmation by email and FileMaker update.

(cf. CTX-QUA-001 §1.3, M1-DIR-001 §6)

8.3 Design and development — EXCLUDED

Plus Sarl does not design the products. The designs, specifications, patents and specifications belong to the customers or are defined by the industrial partners. This exclusion is justified in DOM-QUA-001 §3.

8.4 Control of externally provided processes, products and services

Production is entirely outsourced to Chinese partners. Control is based on:

- **Selection** based on **7 criteria**: technical capacity, quality, responsiveness, reliability, price, communication, flexibility ●
- **Monitoring**: regular communication (email, WeChat), documented exchanges, production reports
- **Evaluation** based on **4 indicators**: deadline compliance, parts conformity, relationship stability, responsiveness ●
- **Control**: pre-shipment quality control by the partner, validated samples
- **Tooling validation**: every new mould validated on sample before series launch ●
- **Confidentiality**: customer intellectual property protected by Quality Agreements ●

Formalized Quality Agreements:

- **FOR-AQF-001** — Quality Agreement with Hardeng Yuyao Mould Factory (10 sections) ●
- **FOR-AQF-002** — Quality Agreement with Oukailuo (10 sections) ●

Main carrier: ECAM (China), contact Sofia (WeChat/email). Very positive evaluation for years. Freight forwarders defined by price, quality or port of arrival. ●

(cf. PRO-ACH-001, FIC-PRO-001, FOR-EVF-001, FOR-AQF-001, FOR-AQF-002)

8.5 Production and service provision

Coordination of production and logistics service provision follows processes O2 and O3:

Process O2 — Purchasing and Subcontracting:

- Transmission of orders and technical requirements to partners
- Verification of feasibility, deadlines and manufacturing conditions

- Production monitoring through documented exchanges
- Sending and validation of samples

4 means of conformity for outsourced production (clause 8.5):

1. Transmission of complete technical specifications
2. Production monitoring (photos, progress reports, WeChat)
3. Pre-shipment quality control by the partner
4. Sending of samples to Plus Sarl in parallel with transport ●

Process O3 — Logistics and Delivery:

- Organization of adapted transport (air, sea, rail)
- Compliant shipping and customs documents
- Transport monitoring until final delivery
- Customer information in case of delay or incident

(cf. PRO-LOG-001, FIC-PRO-002)

8.5.3 Customer property

Moulds are developed and stored in China at the partners' facilities. Moulds are the **property of the customers**. A mould inventory exists. ●

Technical data (designs, specifications) belong to the customers and are treated as confidential.

(cf. CTX-QUA-001 §9, PRO-DOC-001 §7)

8.6 Release of products and services

Before shipment, Plus Sarl ensures conformity through a **formalized release based on 3 criteria** (clause 8.6):

1. **Manufacturer QC conforming** — the partner performs an internal quality control before shipment
2. **Confirmation of correspondence with the order** — verification that production matches the specifications
3. **Photos of parts and packaging** — visual evidence of conformity

In addition: sending of samples to Plus Sarl in parallel with transport. Documentary follow-up maintained on FileMaker. Analysis of customer feedback after delivery. ●

(cf. FOR-CTR-001)

8.7 Control of nonconforming outputs

In case of identified nonconformity, **4-step process** (clause 8.7):

1. **Identification and isolation** of the affected lot
2. **Analysis of the NC** and treatment decision (acceptance, replacement, correction)
3. **Corrective actions** (cf. PRO-NCF-001, PRO-ACR-001)
4. **Recording** in the NC register FileMaker ● [TO BE VERIFIED — register to be set up]

(cf. *PRO-NCF-001*)

Chapter 9 — Performance Evaluation

9.1 Monitoring, measurement, analysis and evaluation

QMS performance monitoring relies on **5 aspects of monitoring, measurement, analysis and evaluation** (clause 9.1):

1. **Deadline monitoring:** sea/rail transport (+/-10 days), air (+/-3 days)
2. **Product conformity:** conformity rate $\geq 95\%$, max 3 NCs/customer/year
3. **Supplier performance:** continuous evaluation (deadlines, conformity, stability, responsiveness)
4. **Customer satisfaction:** absence of major complaint, qualitative feedback, customer retention
5. **Analysis frequency:** quarterly (indicators), annual (management review, audit)

Performance indicators (dashboard):

Indicator	Target	Frequency
% of deliveries on time	$\geq 95\%$	Quarterly
No. of NCs per customer/year	Max 3	Quarterly
Offer validation without major renegotiation	Yes	Quarterly
Average email response time	24-48H	Quarterly
Overall customer satisfaction	Absence of major complaint	Semi-annual

(cf. OBJ-QUA-001 §2, §4)

9.1.2 Customer satisfaction

Customer satisfaction is evaluated through:

- monitoring of major complaints
- collection of customer feedback (satisfaction form)
- annual review

(cf. FOR-SAT-001)

9.2 Internal audit

The internal audit is carried out at least once a year, in accordance with procedure PRO-AUD-001.

Element	Detail
Frequency	Minimum once a year
Auditors	Capucine Wicky & Olav Wicky (shareholders of Plus Sarl) 
Reference	PRO-AUD-001, CHK-AUD-001

Independence requirement satisfied (clause 9.2.2 c): the internal auditors are the shareholders Capucine and Olav Wicky, who do not carry out any operational activity in the company. ●

(cf. PRO-AUD-001, CHK-AUD-001)

9.3 Management review

The management review is carried out at least **once a year** by Roxane Wicky. It aims to ensure the **relevance, adequacy, effectiveness** and **alignment with the strategy** of the company (reinforced clause 9.3). Intermediate reviews may be carried out in the event of a major event.

6 required input elements (clause 9.3):

- a) Results of indicators (9.1)
- b) Status of corrective actions (10.2)
- c) Status of risks and opportunities (6.1)
- d) Performance of industrial partners (8.4)
- e) Resources (chapter 7)
- f) Opportunities for improvement (10.3)

Decisions and actions resulting from the review: define new quality objectives if necessary, decide on corrective or preventive actions, strengthen supplier selection or monitoring, adjust operational processes, plan priority improvements. Decisions are formalized in the management review minutes.

(cf. FOR-RDR-001, M1-DIR-001 §8)

Chapter 10 — Improvement

10.1 General

Plus Sarl determines and selects improvement opportunities and undertakes the necessary actions to satisfy customer requirements and increase their satisfaction.

Process **M2 — Continual improvement** drives the improvement of the QMS through:

- monitoring of performance indicators
- management of corrective actions
- trend analysis
- review of the effectiveness of changes

10.2 Nonconformity and corrective action

Identification of NCs:

- during controls by the industrial partner
- upon reception of goods by the customer
- following a complaint

Treatment process (clause 10.2):

1. Root cause analysis
2. Identification of the type of cause (5 types: production defect, human error, labeling, logistics, clarification)
3. Appropriate corrective action (5 types: production correction, QC reinforcement, labeling rework, logistics adaptation, communication improvement)
4. Implementation of corrective actions
5. Verification of their effectiveness
6. Integration into quality monitoring, internal audit and management review

Corrective actions register by category (suppliers, carriers, customer) in FileMaker. If recurrence of an identical NC: in-depth analysis and reinforced actions. ●

NC recorded in 2026: NC_2026_1001 — labeling error on shipment SHIP_25058 / article CFM00057428 / reference 90.60.05710 (1000 parts with incorrect label). Action: reinforcement of labeling control. ●

(cf. PRO-NCF-001, PRO-ACR-001, FOR-RCL-001)

10.3 Continual improvement

Continual improvement (clause 10.3) targets 5 objectives: reduce NCs, optimize deadlines, strengthen quality, improve customer satisfaction, make the logistics chain more reliable.

Improvement triggers:

- Detected or recurring nonconformity
- Observed delivery delay
- Customer return or complaint
- Quality indicators below targets

- **Visits to China** — major improvement lever (formalization of production monitoring, on-site quality control, strengthening partner relationships) ●

The effectiveness of improvements is verified against 4 criteria: disappearance of the problem, improvement of indicators, satisfaction of parties, absence of recurrence.

Improvement decisions are consolidated during the annual management review and integrated into the planning of quality objectives.

Revision history

Version	Date	Modification	Author
0.4	20/02/2026	Initial creation of the Quality Manual (working version). Compilation of all QMS v0.4 documents including 16 integrated UPDATES (U1-U16).	Roxane Wicky
0.4	22/02/2026	Complete update: integration of UPDATES 7.5-8.7 (U17-U23), UPDATES 9.1/10.2/10.3/9.3 (U24-U27) and RECAP 13 points. Major enhancements: 6 types of requirements (8.2), 7 selection criteria + 4 indicators (8.4), 4 means of conformity (8.5), 3 release criteria (8.6), 4-step NC process (8.7), 5 monitoring/measurement aspects (9.1), 5 types of NC causes (10.2), continual improvement 10.3, reinforced management review 9.3. RECAP resolutions: auditor Capucine & Olav Wicky, Roxane diplomas, Gramatec SA, ECAM/Sofia, Quality Agreements FOR-AQF-001/002. Total: 26 QMS documents.	Roxane Wicky

Quality Manual written in compliance with the requirements of the ISO 9001:2015 standard.

Working document — Version 0.4 (updated 22/02/2026) — Plus Sarl, Cudrefin, Switzerland.

PART 2

AUDIT DOSSIER INDEX
ISO 9001:2015 — QMS Document Correspondence

Audit Dossier — Index Structured by ISO 9001:2015 Chapter

Company	Plus Sarl
Address	Route de Montet 11, 1588 Cudrefin, Switzerland
IDE No.	CH-645.4.101.228-7
Managing Director	Roxane Wicky
Certification body	SQS
Version	0.4 — Working version
Date	22/02/2026

Purpose of this document

This document constitutes the reference index of the ISO 9001:2015 audit dossier of Plus Sarl. It enables the SQS auditor to quickly locate each requirement of the standard within the QMS documentation.

The dossier is organised according to the structure of ISO 9001:2015 (chapters 4 to 10).

QMS Overview

Element	Reference
Quality Manual	MQ-001 (this dossier)
Process Map	CRT-QUA-001 + .drawio file
Number of processes	10 (3 management + 4 operational + 3 support)
Number of QMS documents	26 documents
Exclusion	Clause 8.3 — Design and development

ISO 9001:2015 — QMS Document Correspondence

Chapter 4 — Context of the organisation

ISO Clause	Requirement	QMS Document(s)	Section(s)	Status
4.1	Understanding of the organisation and its context	CTX-QUA-001	Sections 1, 2 (SWOT)	●
4.2	Understanding the needs and expectations of interested parties	CTX-QUA-001	Section 3	●
4.3	Determining the scope of the QMS	DOM-QUA-001	Sections 1-5	●
4.4	QMS and its processes	CRT-QUA-001	Sections 1-6	●

Chapter 5 — Leadership

ISO Clause	Requirement	QMS Document(s)	Section(s)	Status
5.1	Leadership and commitment	M1-DIR-001	Sections 2, 2.3	●
5.1.2	Customer focus	M1-DIR-001	Section 2.2	●
5.2	Quality policy	POL-QUA-001	Complete document	●
5.3	Roles, responsibilities and authorities	M1-DIR-001	Sections 3, 4, 5, 6	●

Chapter 6 — Planning

ISO Clause	Requirement	QMS Document(s)	Section(s)	Status
6.1	Actions to address risks and opportunities	CTX-QUA-001	Section 5 (5.1 to 5.4)	●
6.2	Quality objectives and planning to achieve them	OBJ-QUA-001	Sections 1-3	●
6.3	Planning of changes	CTX-QUA-001	Section 6 (6.1 to 6.4)	●

Chapter 7 — Support

ISO Clause	Requirement	QMS Document(s)	Section(s)	Status
7.1	Resources (general, HR, infrastructure, environment)	CTX-QUA-001	Section 7 (7.1 to 7.5)	●
7.1.5	Monitoring and measuring resources	CTX-QUA-001	Section 7.3 (infrastructure)	●
7.2	Competence	FOR-CMP-001	Sections 1-4	● (diplomas and experience documented)

ISO Clause	Requirement	QMS Document(s)	Section(s)	Status
7.3	Awareness	FOR-CMP-001	Section 5	
7.4	Communication	CTX-QUA-001, M1-DIR-001	CTX §7.6-7.7, M1 §7	
7.5	Documented information	PRO-DOC-001	Sections 1-9	

Chapter 8 — Operation

ISO Clause	Requirement	QMS Document(s)	Section(s)	Status
8.1	Operational planning and control	CRT-QUA-001	Section 3 (main flow)	
8.2	Requirements for products and services	CTX-QUA-001, M1-DIR-001	CTX §1.2, 1.3; M1 §6	
8.2.1	Customer communication	M1-DIR-001	Section 7.2	
8.2.2	Determining the requirements	M1-DIR-001	Section 6.1	
8.2.3	Review of requirements	CTX-QUA-001	Section 1.3 (order review)	
8.3	Design and development	EXCLUDED	DOM-QUA-001 §3	Justification documented
8.4	Control of externally provided processes, products and services	PRO-ACH-001, FIC-PRO-001, FOR-EVF-001, FOR-AQF-001, FOR-AQF-002	Complete documents (formalized quality agreements)	
8.5	Production and service provision	PRO-LOG-001, FIC-PRO-002	Complete documents	
8.5.3	Property belonging to customers or external providers	CTX-QUA-001, PRO-DOC-001	CTX §9 (moulds), PRO-DOC §7	
8.6	Release of products and services	FOR-CTR-001	Complete document	
8.7	Control of nonconforming outputs	PRO-NCF-001	Complete document	

Chapter 9 — Performance evaluation

ISO Clause	Requirement	QMS Document(s)	Section(s)	Status
9.1	Monitoring, measurement, analysis and evaluation	OBJ-QUA-001, FOR-SAT-001	OBJ §2 (dashboard), §4 (5 aspects of 9.1), FOR-SAT	●
9.1.2	Customer satisfaction	FOR-SAT-001	Complete document	●
9.2	Internal audit	PRO-AUD-001, CHK-AUD-001	Complete documents	●
9.3	Management review	FOR-RDR-001, M1-DIR-001	FOR-RDR complete, M1 §8	●

Chapter 10 — Improvement

ISO Clause	Requirement	QMS Document(s)	Section(s)	Status
10.1	General	CRT-QUA-001	M2 — Continual improvement	●
10.2	Nonconformity and corrective action	PRO-NCF-001 (§11), PRO-ACR-001, FOR-RCL-001	5 cause types, CA register, corrective actions	●
10.3	Continual improvement	PRO-ACR-001 (§9), CRT-QUA-001, FOR-RDR-001	Triggers, China visits, effectiveness verification	●

List of QMS documents (by category)

01 — Mandatory documents

#	Reference	Title	ISO clauses covered
1	DOM-QUA-001	Scope of Application of the QMS	4.3
2	POL-QUA-001	Quality Policy	5.2
3	OBJ-QUA-001	Quality Objectives	6.2
4	CTX-QUA-001	Organization Context	4.1, 4.2, 6.1, 6.3, 7.1, 7.4
5	CRT-QUA-001	Process Map (+.drawio)	4.4
6	M1-DIR-001	Leadership and Assignment of Responsibilities	5.1, 5.3, 8.2
7	FIC-PRO-001	Process Sheet O2 — Purchasing and Subcontracting	8.4
8	FIC-PRO-002	Process Sheet O3 — Logistics and Delivery	8.5

02 — Procedures

#	Reference	Title	ISO clauses covered
9	PRO-DOC-001	Document and Records Control	7.5
10	PRO-AUD-001	Internal Audit	9.2
11	PRO-NCF-001	Nonconformities	8.7, 10.2
12	PRO-ACR-001	Corrective Actions	10.2
13	PRO-ACH-001	Purchasing and Subcontracting	8.4
14	PRO-LOG-001	Logistics and Delivery	8.5

03 — Forms and Records

#	Reference	Title	ISO clauses covered
15	FOR-EVF-001	Supplier Evaluation	8.4
16	FOR-SAT-001	Customer Satisfaction	9.1.2
17	FOR-RDR-001	Management Review	9.3
18	FOR-CMP-001	Competencies and Training	7.2, 7.3
19	FOR-RCL-001	Customer Complaints	10.2
20	FOR-CTR-001	Reception Control	8.6
21	FOR-AQF-001	Quality Agreement — Hardeng Yuyao Mould Factory	8.4

#	Reference	Title	ISO clauses covered
22	FOR-AQF-002	Quality Agreement — Oukailuo	8.4

04 — Checklists

#	Reference	Title	ISO clauses covered
23	CHK-AUD-001	ISO 9001 Audit Checklist	9.2

Supplementary files

#	Reference	Title
24	CRT-QUA-001.drawio	Process Map (visual format)
25	LEGEND.md	Field Legend System
26	MISSING_INFORMATION_v0.4.md	Information Tracking and Updates

Points of attention for the auditor

Pending information (●)

#	Element	Document	Impact
1	~~Managing director diplomas and training~~	FOR-CMP-001 §1	● Resolved — diplomas and experience documented (RECAP point #7)
2	~~Prior professional experience~~	FOR-CMP-001 §1	● Resolved — assistant to management 2013-2016, managing director 2016-present
3	Self-assessment of competencies	FOR-CMP-001 §4	To be completed (ratings 1-5)
4	Training record	FOR-CMP-001 §2	To be completed with past training
5	Quarterly monitoring of quality objectives	OBJ-QUA-001 §1-2	First year — data collection in progress
6	Formalized quality control sheet with partners	CTX-QUA-001 §1.1 (O4)	● To be formalized during the China trip March 2026

QMS Strengths

- Complete documentary structure (26 documents) covering all ISO 9001 chapters
- Process map with 10 formalized processes
- Detailed RACI matrix for the sole-proprietor company
- Complete SWOT analysis with risk/opportunity matrix
- 5 measurable quality objectives with quarterly tracking tables
- Quality policy signed by management ●
- External communication structured by interested party
- Clause 8.3 exclusion clearly justified
- Internal auditor identified: Capucine & Olav Wicky (independence requirement satisfied) ●
- Formalized quality agreements with both Chinese partners (FOR-AQF-001/002) ●
- Backup identified: Gramatec SA (Switzerland), automatic recording ●
- Managing director diplomas and experience documented ●
- Main carrier identified: ECAM, contact Sofia ●

Pre-audit recommendations

#	Recommendation	Priority
1	~~Complete diplomas and training~~	~~High~~ ● Resolved
2	Complete the competency self-assessment (FOR-CMP-001 §4)	High
3	Attend ISO 9001 training (via SQS or SAQ)	High

#	Recommendation	Priority
4	~~Appoint an internal auditor~~	~~Recommended~~  Capucine & Olav Wicky
5	Formalize the quality control sheet with partners (China trip March 2026)	Recommended
6	Begin quarterly indicator monitoring (OBJ-QUA-001)	High
7	Have quality agreements FOR-AQF-001/002 signed (China trip March 2026)	High
8	Create the NC register in FileMaker (cf. UPDATE 8.7)	High
